

# HOW TO SHIP FASTER

eCommerce  
is  
approaching  
peak  
adoption

**When it comes to delivery,  
customers now want...**

**PRICE**

**QUALITY**

**SPEED**

**ACCURACY**

**TRANSPARENCY**

**PERSONALISATION**

**CONVENIENCE**

It takes 1 bad  
delivery to lose a  
customer

---

**3-5  
minutes**

The time it takes the average Australian  
retailer to ship each online order

---

**60%**

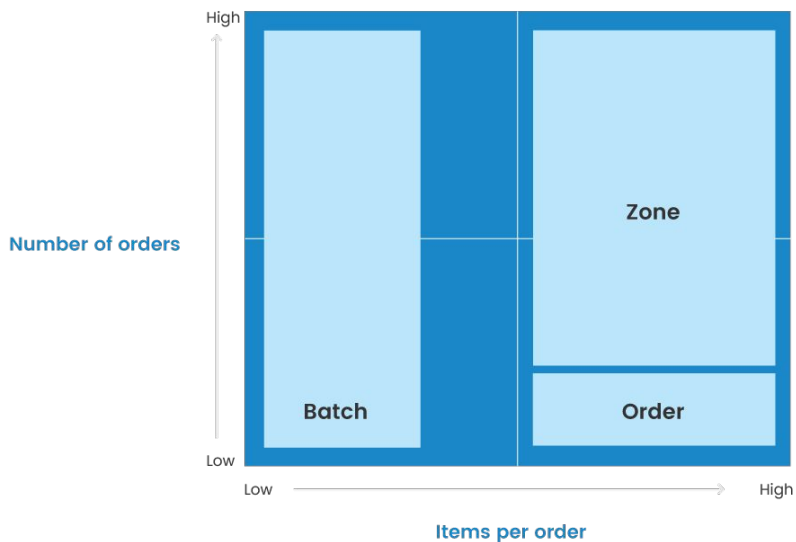

of online carts abandoned from  
expensive and slow delivery options

# How to Supercharge Your Pick and Pack Process

## PART 1

# Best Practice Tips for Picking & Packing Faster

### PICKING STRATEGY - BATCH, ZONE OR BY ORDER?

## STRUCTURE & PREPARATION IS KEY

1

Make high-demand items easily accessible

2

Stop picking by orders and start picking in batches or zones

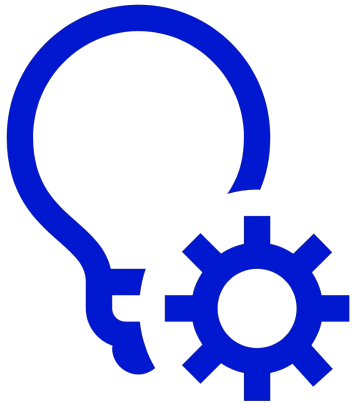

3

Standardise your packaging sizes

Read our full guide here: <http://bit.ly/packefficiency>

## PART 2

# Enable Your Team With Technology

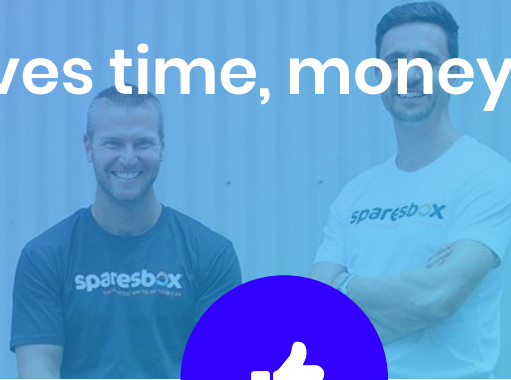

## ELIMINATE MANUAL TASKS & DATA ENTRY

- 1 Automate the pick, pack and label process
- 2 Prioritise orders to pick based on carrier pick-up times and express orders
- 3 Use reporting insights to pinpoint bottlenecks in your fulfilment process
