

Importance of Shipping in World 2.0

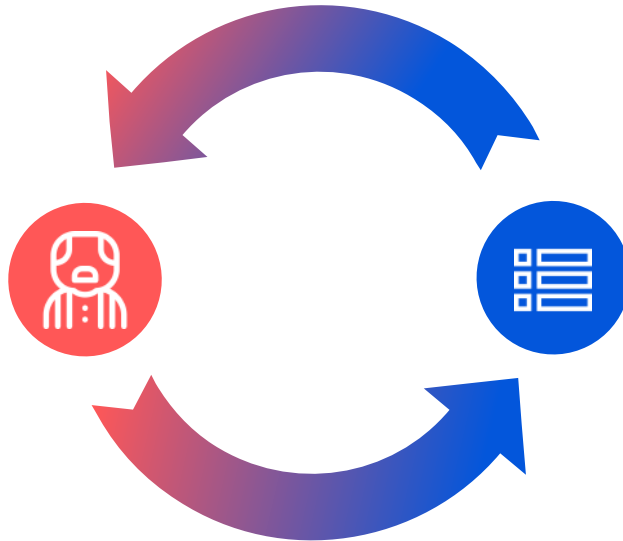

**Online Retail penetration
has leapfrogged 3-5
years**

Online sales during the pandemic surpassed 2019 **peak** levels

New Segments

Pensioners
In-store shoppers

New Categories

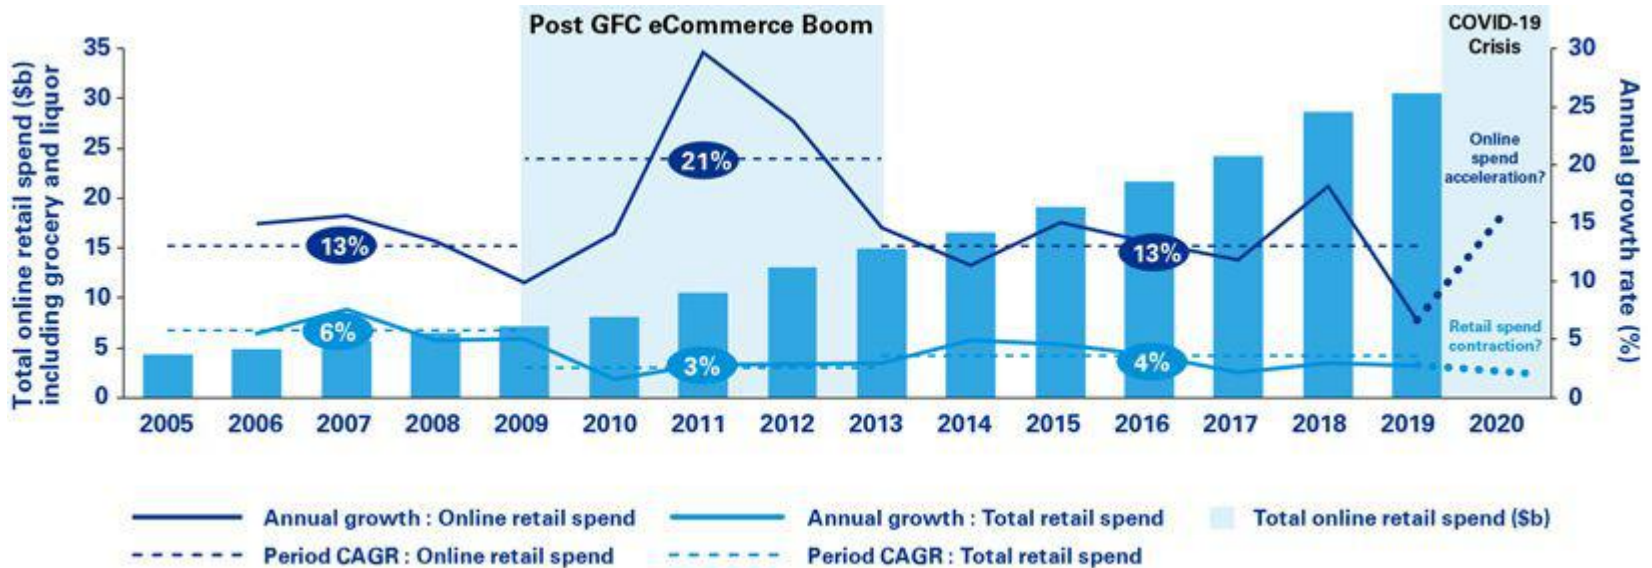

Furniture stores
Hospitality

**Could 20% of Australian
retail sales be online by
2021?**

Post-COVID eCommerce Boom?

Source: KPMG analysis; NAB Online Retail Sales Index; Australian Bureau of Statistics

* Online retail penetration calculated as total online retail spend divided by total retail spend (including groceries and liquor; excluding cafes, restaurants and takeaway food services)

+
**Emerge
Stronger in
the New
Normal**

**We've all had to
adapt our value prop
to capture growth**

What customers look for in uncertain times

Familiar and trusted brands as a safe and comforting choice

Messages of reassurance as they search for emotional connection

Reinforce quality and focus on communicating value for money

Delivery is the only tangible touchpoint in the customer journey. Reliability is key.

Building trust & providing certainty will set you apart from other retailers

“There will be severe delays”: Retailers face new challenges online

NEWS / NATIONAL

Australia Post employs addition 600 casual to keep up with rising demand from online shopping amid COVID-19 lockdown

👤 Here's why your Aus Post delivery is taking so long to arrive

What you can do to build trust with delivery

Give certainty by setting expectations at check-out

Your Control

Time to dispatch

Delivery Date

Carriers Control

Giving Customers Reassurance When It Matters

1

Delivery Delays

Proactively alert customers on carrier network and service disruptions.

2

Seamless Returns

Give customers peace of mind with extended return windows

Offer courier pick-ups as a return method

2

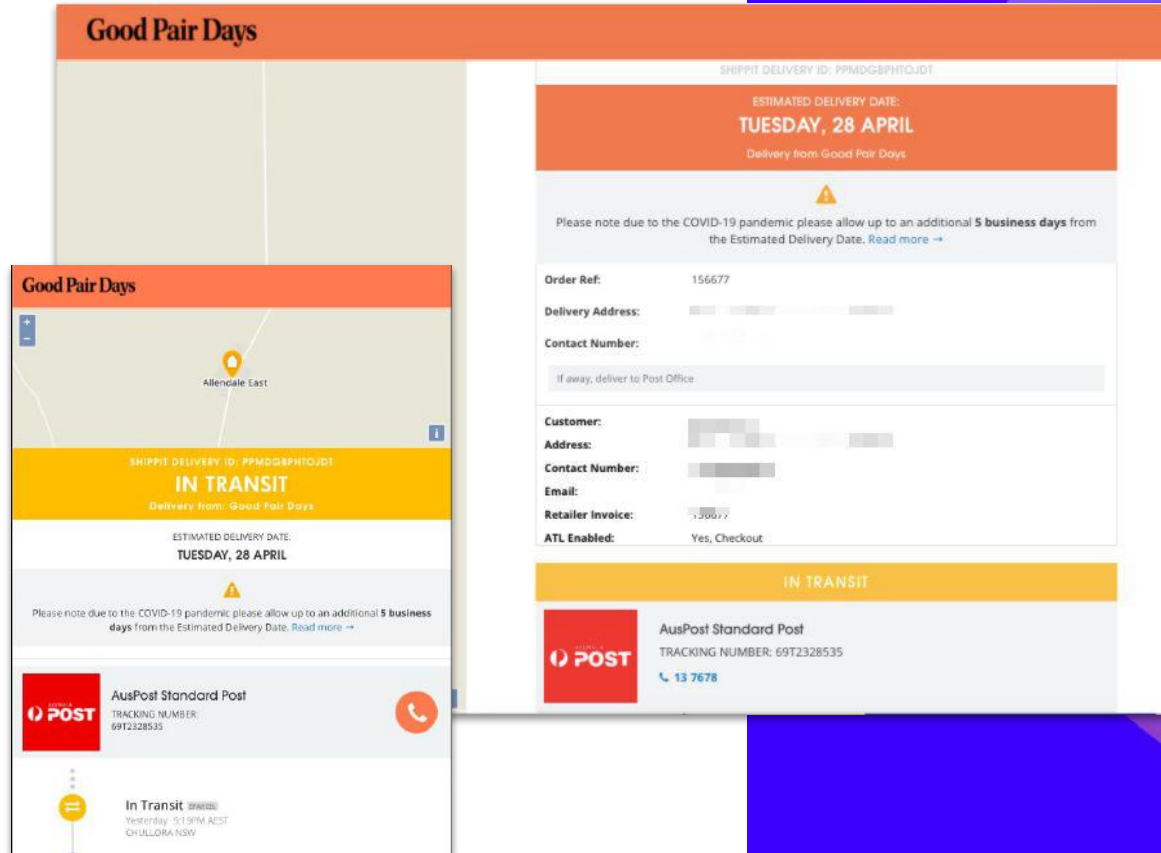

Contactless Deliveries

To ensure the safety of community

If signature required, use same day scheduled delivery or TNT

Giving Customers Reassurance When It Matters Most

Do Business with Purpose

Make Corporate Social
Responsibility a Priority

**Every eCommerce delivery has
a carbon footprint**

Shippit's discounted shipping rates are
100% Carbon Neutral.
Standard, Express, Internation, Same
Day & On Demand

Customers Want Affordability

Free Shipping
is the new
normal

1

Implement a 'Free Shipping' threshold

If it's too low, the majority of your customers qualify and aren't incentivised to pay more

If it's too high above AOV, customers won't reach

2

Reduce uncertainty with 'Flat Rate Shipping'

Find out what flat rate works for you

Test & learn with order totals and weights

Option to provide different rates for different regions

The Need for Speed

Differentiating for instant gratification when everyone is online.

Same Day & On Demand provides instant gratification akin to the in-store shopping experience

Differentiating in The New Normal

01

Free Shipping

Customers won't settle for anything less

02

Flexible Returns

Courier pick-up or post it at the post office, customers want control

03

Proactive Comms

Don't leave customers in the dark. Be proactive & transparent

04

On Demand Delivery

From Same Day to On Demand, customers want instant gratification

Shipping made Simple
